 @FYNDPLATFORM
 Scenario Outline: Get Company Related details of a seller in Fynd Platform
   Given I login to Fynd Platform as a seller using email and password
   And Seller searched for a company from the list "<companyName>" , "<pageNo>" and "<pageSize>"
   And Seller clicked on the profile to get the company profile "<companyId>"
   And Seller should be able to see the company details associated with the company "<companyId>"
   And Seller should be able to search the brand details associated with the "<companyId>" and "<brand_ids>"
   Then Seller logout from Fynd Platform
   Examples:
     | companyName | companyId | brand_ids | pageNo | pageSize |
     | X5 | 149 | 6828 | 1 | 10 |

 @FYNDPLATFORM
 Scenario: Create Location Details for the Company
   Given I login to Fynd Platform as a seller using email and password
   And Seller adds the GST details
   And Seller should be able to add the company location
   Then Seller logout from Fynd Platform
